

Logistics Services RFP Questions Set 4

No.	Section	RFP Reference	Comments/Questions	Resolution
95.	B.3	Amended Response	Base period in RFP (B-3) is outlined as 6 months. Pamela Lee spoke this morning to 9 months. Which is it?	The base period will begin at the end of the phase-in period. The period will end on 30 September 2007 as identified in Schedule B. Please prepare your proposal using the anticipated award date of September 30, 2006.
69.	Section B.6 CLIN 0002b - 4002b pages B-3 thru B-7	Indefinite Delivery/Indefinite Quantity Unscheduled Pickups and Deliveries	Please clarify "miles". Does a mile include the lat biddable, since a full truck move of one mile is far single box moved 20 miles.	Issue addressed by Amendment 001
124.		RFP Section B – page B-3	Clin 0002b requires the contractor to provide a unit price by miles. This is not possible without knowing the size and weight of the items, and the locations of the pickups and deliveries. Consider revising Schedule B X002b to change the unit from miles to a time and materials basis.	Issue addressed by Amendment 001

No.	Section	RFP Reference	Comments/Questions	Resolution
143	Section B.6.1 page B-22	Indefinite Delivery/Indefinite Quantity. <u>This paragraph was not changed in the amendment.</u>	<p>The last sentence "CLINs 0002c, 0002d, 1002c, 1002d, 2002c, 2002d, 3002c, 3002d, 4002c, and 4002d are not applicable to Campus locations" was not changed in the amendment. However, this no longer corresponds with the numbers in the CLIN charts on earlier pages.</p> <p>The C-CLINS are for locksmith services which appear in Section J-6, TE7 and TE-8, this seems to indicate the work would be required in campus locations.</p> <p>The D-CLINS on the charts on pages B-3 thru B-11 read "Intra-Office" Campus Box Moves, this too seems to indicate the work would be required in campus locations.</p> <p>Please clarify this entire paragraph.</p>	<p>Section B.6.1 has been updated to reflect the proper CLIN numbers.</p> <p>The C CLINs reflect locksmith services performed at IRS office (non-Campus) locations. These CLINs are IDIQ. Workload for locksmith services at non-Campus locations is shown in Section J-6, TE 8.</p> <p>Locksmith services at Campus locations are part of Basic Services which are firm fixed price. Workload for Campus locations is shown in Section J-6, TE 7.</p> <p>The D and E CLINS reflect work performed at Campus locations. The CLIN descriptions have been revised to Intra-Campus Box Moves and Intra-Campus Property Moves, respectively. The D and E CLINs are IDIQ. The box and property moves workload for Campus locations is shown in Section J-6, TE 7.</p>
144.	Section B.6 CLIN 0002b, 1002b, 2002b, 3002b, 4002b page B-3 thru B-11 Also Table B.1 pages 13 -22	Unscheduled Pickups and Deliveries	<p>It is unclear how the total for this CLIN can be computed from the table as the table does not allow for totals and the average work order including average mileage distance and weight is not evident anywhere in Section J TE-5 for unscheduled pickups and deliveries.</p> <p>Please clarify as this is currently not biddable.</p>	<p>There is no workload available for unscheduled pickups and deliveries. However, in order for all Offerors to bid this requirement, a sample workload data set has been added to Section B, Table B.2. All Offerors are to use the rates provided in Table B.1 to compute a hypothetical cost for the sample workload data provided in Table B.2. This will enable Offerors to include costs in their bid for Unscheduled Pickups and Deliveries.</p>

145.	Section B.6 CLIN 0001, 0002c, 1002c, 2002c, 3002c, 4002c and 0005. pages B-3 thru B-11 Also C.1.4 page C-5	Repair Services	<p>These three CLINs all reference C.1.4. CLINs 0002c, 1002c, 2002c, 3002c, 4002c specifically use the word "Office" for locksmith services.</p> <p>0001 and 0005 do not use the word campus or office.</p> <p>Section C.1.4 first paragraph last sentence was not amended and references TE-7 Campus and TE-8 IRS offices.</p> <p>Please clarify. What CLIN should reflect costs for Campus locksmith services and Campus repairs?</p>	<p>The C CLINs reflect locksmith services performed at IRS office locations (i.e., non-Campus). These CLINs are established as IDIQ. The locksmith services workload for non-Campus locations is shown in Section J-6, TE 8.</p> <p>"Inter-Office" will be added to CLIN 0005.</p> <p>Section C.1.4 has been amended to segregate Campus and non-Campus workload.</p> <p>Locksmith services at Campus locations are part of the firm fixed price. The locksmith services workload for Campus locations is shown in Section J-6, TE 7.</p>
146	Section J-6, TE 11 pages 33 and 34 Kansas City	Government Furnished Equipment (GFE)	Two of the three added items # 71, and 73 - we understand are leased rather than government owned. Since this is equipment is being furnished by the government - can we assume it's at the government's cost and no cost to the SP.	Section J-6, TE 11, has been amended. Two of the three identified items are in fact leased and will not be offered as GFE.
147.	Section J-6, TE 11 pages 42 Ogden	Government Furnished Equipment (GFE)	Three of the six added items # 2, 3 and 4 - indicate these are shared items. What does that mean? Since these are government furnished, can we assume that these items will be available on a full-time as needed basis to the SP.	The Ogden shared equipment identified will be available to the SP 80% of the time. If availability impacts required completion times, the DGR is to be contacted.

No.	Section	RFP Reference	Comments/Questions	Resolution
148.	Section B.6 CLINs 0006 and 007	Inter Office Box Moves and Inter Office Property Moves	Please clarify if the work described in paragraphs C.1.5.1.3 and C.1.5.2.3 are new requirements or is this part of the work represented in Section J-6 TE-7 and TE-8?	The work described in Sections C.1.5.1.3 and C.1.5.2.3 is cost reimbursable. Prices will be negotiated individually by task order. Workload appearing in Section J-6, TE 7 and TE 8, is associated with Intra-Campus and Intra-Office moves.
149.	Section L.10 Paragraph 1 Staffing Plan Page L-13		Are the "Letters of Intent" included in the page limit? This could be a significant number of pages if a contractor plans on utilizing the existing workforce or new employees. Please consider removing the Letters of Intent from the 150 page limit.	Letters of Intent removed from page count limit. See Amendment 002.
